

REMARKS

Applicant has undertaken voluntarily to amend the Specification to better define the invention without limiting effect, for consistency with the Examiner's Amendment dated September 10, 2009, omitting excess verbiage, correcting matters of antecedent basis, addressing syntax and grammar, and attending to matters of style and readability.

Overall, the Specification, Abstract and the Claims have been amended to further comport with U.S. practice, and, in so doing, to better define the invention without limiting effect. No new matter has been added.

Also, an executed copy of a Substitute Declaration is attached in accordance with the Examiner's requirement.

If there is any further point requiring attention prior to issuance, the Examiner is asked to contact Applicants' counsel at (646) 265-1468.

Respectfully submitted,

Grant E. Pollack, Esq.
